

Calron®

NUTRITION

PRODUCT BENEFITS

ENHANCED BUD DEVELOPMENT

Supports nutrient uptake and mobility for healthy bud development

IMPROVED FRUIT FIRMNESS

Enhanced calcium mobility supports fruit firmness and crop quality

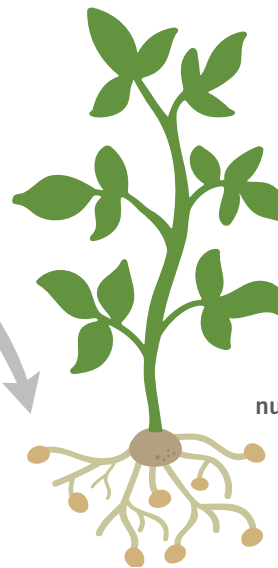

OPTIMIZED NUTRIENT MOBILITY

Supports root uptake and nutrient movement throughout the plant

Calron® is a soil-applied calcium and nitrogen product built with our Transit® biostimulant to support nutrient uptake and mobility, bud development, and crop quality.

Calcium is essential for healthy plant development and crop quality, but limited mobility within the plant can make efficient delivery challenging. Calron combines our Transit biostimulant with targeted calcium and nitrogen nutrition to improve root uptake and nutrient mobility, supporting bud development, cellular strength, and fruit firmness throughout crop development.

Supports fruit firmness and crop quality

Supports
nutrient uptake

MODE OF ACTION

Our Transit biostimulant in Calron improves the uptake and mobility of calcium and nitrogen in the xylem and phloem, helping plants make more efficient use of applied nutrition.

Ca

Calcium supports cellular strength and plant structure, contributing to bud development, fruit firmness, and crop quality.

N

Nitrogen supports chlorophyll production, photosynthesis, and healthy plant growth.

Contact your Sumitomo Biorational representative to discuss product fit, use, and application for optimal performance.

GUARANTEED ANALYSIS

Nitrogen (N) 3.0%
 3.0% Nitrate Nitrogen
 Calcium (Ca) 8.0%
 Derived from: Calcium gluconate and calcium nitrate.

USE RATE	APPLICATION TIMING
1 – 8 qt/ac	Any time during the growing season; repeat as needed.

APPLICATION NOTES

- Apply as a soil application to support root uptake of calcium and key nutrition.
- Apply enough water to move the product into the area of active rooting, but avoid excessive amounts that may leach.
- Integrate with existing fertility programs when appropriate.
- Conduct a standard jar test before tank mixing.
- Refer to the product label for complete application instructions and crop-specific use directions.
